EDUCATION
HIMACHAL PRADESH UNIVERSITY
B.Tech IN ELECTRONICS AND COMMUNICTION
2008 – 2012
Percentage: 81.2

AWARDS/RECOGNITIONS
2017-Nominated for Dexter Award in SAP Labs

2015- Rising Star Award

2012- Research paper on Gesture Recognition Using Particle Filter

EXPERIENCE | 4.8 years

CAPGEMINI | CONSULTANT
Nov 2016 – Till Date | Bangalore (1.6 years)

SAP Digital Manufacturing Insights, is an Internet of Things (IoT) application to gain a common understanding of the priority, cost, and impact of new improvements in standard processes and workflows. As a developer, my responsibilities are:
- Developed and implemented complex web applications using UI5(JavaScript and HTML5 based framework).
- Provided continued maintenance and development of bug fixes and patch sets for existing web applications.
- Suggested improvements to team and project workflow.
- Worked with project managers, developers, quality assurance and customers to resolve technical issues.

SAP Connection Discovery, offers interactive visualizations to gain insights and explore connections. My responsibilities were:
- Developed and designed interactive web applications using UI5, JavaScript, jQuery, D3 libraries and ESRI maps.
- Improved system performance by making proactive adjustments and resolving bugs.
- Created proofs of concept for innovative new solutions based upon Machine Learning and Block Chain.

INCTURE TECHNOLOGIES| CONSULTANT
Nov 2015 – Oct 2016 | Bangalore (1 year)

SAP MDG Fiori Application, uses Change Request service to create a change request for changing a single customer. My responsibilities were:
- Provided continued maintenance and development of bug fixes and patch sets for existing web applications.
- Consistently met deadlines and requirements for all development requests.

SAP Smart Business, is the new User Experience for SAP Business Suite powered by SAP HANA, combining modern working models with a consumer-grade usability. As a developer, my responsibilities were:
- Developed and implemented web applications based upon SAP Fiori guidelines.
- Proposed technical feasibility solutions for new functional designs and suggested options for performance improvement of technical objects.
- Provided methodologies for object-oriented software development.

INFOSYS LIMITED | SENIOR SOFTWARE ENGINEER
Sep 2013 – Oct 2016 | Bangalore (2.2 years)

Kraft Foods, uses web application to handle product, material, customer and vendor workflows. It made use of MDG and ECC systems. My responsibilities:
- Developed UI screens and consistently met deadlines and requirements for all development requests.
- Collaborated with clients from concept through final delivery of product.
- Updated and fixed existing software and system applications.

HACKATHONS

INNVENT (Innovation + Venture) **|** SPATIAL DATA VISUALIZER
Developed UI screens for Geospatial Visualizer. Implemented HERE maps to plot spatial data. Considered for productization. Has been filed for patent.

WHAT THE HACK

Developed UI5 application for public security. It was integrated with drones, included speech recognition feature and made use of geo-tracker as well.
